

Dr Evangelos N. PAPOUTSIDAKIS

Dr Papoutsidakis has been trained as a physician in the University of Crete, Greece, in 2001, and continued his education to obtain a Master's degree in Bioethics at the Department of Philosophy, Sociology and Social Studies at the Faculty of Medicine and Biology of the University of Crete in 2007. He then became a specialist in Subaquatic and Hyperbaric Medicine in 2011 (University of Barcelona, Spain, European accreditation hyperbaric level 2D and 2H) and also a specialist in Medicine of Physical Education and Sports (University of Barcelona).

Since 2008 he works at the Department of Hyperbaric Oxygen of the CRIS-UTH, Hospital Moisses Brogges, Sant Joan Despi in Barcelona, with Dr Jordi Desola. During his medical practice at CRIS-UTH, he attends a lot of chronic patients, has managed a wide range of emergencies, and has performed many medical examinations to both sport and commercial divers including Saturation Diving candidates. In addition, he serves as the Assistance Coordinating at CRIS-UTH.

He teaches in hyperbaric and diving medicine at the University of Barcelona, is a lecturer at the Master on Diving and Hyperbaric Medicine, organised by CRIS-UTH every year for the University of Barcelona. Since 2020 he is a regular collaborator for Divers Alert Network (DAN) Europe.

He has attended the annual EUBS meetings in the last years, representing CRIS-UTH among other colleagues, presenting some oral and/or poster communications.
