

Duke Anesthesiology seeks Undersea & Hyperbaric Medicine Physician

The Duke Department of Anesthesiology is seeking a specialist in Undersea and Hyperbaric Medicine to work in the Center for Hyperbaric Medicine & Environmental Physiology. Ideal candidates will be BC/BE in Anesthesiology with fellowship training in **Undersea & Hyperbaric Medicine**. Experience managing critical ill patients is required. A commitment to teaching and research (outcomes or the basic sciences) is also desired.

The Division's goal is to promote a constant interplay between scholarly educational activities, research, and clinical practice, with the goal of identifying clinically relevant questions that ultimately benefit patient care and enrich the educational experience of the next generation of specialists.

The Center for Hyperbaric Medicine & Environmental Physiology is located within Duke Medical Center, a tertiary referral center.

Salary and title will be commensurate with training and experience. The Department of Anesthesiology offers a robust compensation plan that rewards clinical productivity and academic excellence. Additionally, faculty members enjoy Duke's generous benefit package including, 401K, dental, vision, CME, moving allowances, and tuition assistance.

The Research Triangle Park is a globally prominent hub for high-tech research and development. Conceived around three major universities in Durham, Chapel Hill and Raleigh, the region attracts and fosters cultural diversity, economic resilience, and nationally recognized as a great place to live and work. To learn more about the Duke and Greater Triangle communities, visit:
